INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

4) Statutory Authority: Ill. Rev. Stat. 1987, ch. 111, pars. 1022.01, 1022.9 and 10275) A Complete Description of the Subjects and Issues Involved:

These amendments reorganize Part 809 and add requirements for maintenance, placarding, and operation of waste hauling vehicles. In addition, these amendments modify the special waste manifest requirements to reflect the classification and declassification of such wastes pursuant to proposed Part 808 (35 Ill. Adm. Code 808).

6) Will this proposed rule replace an emergency rule currently in effect? No7) Does this rulemaking contain an automatic repeal date? No8) Does this proposed (amendment, repealer) contain incorporations by reference? No.9) Are there any other amendments pending on this Part? No
Section Numbers: Proposed Action: Ill. Reg. Citation:10) Statement of Statewide Policy Objective (if applicable)?

One effect of this proposal would be to reduce expenditures by elimination or reduction of waste manifest and reporting requirements. However, by expanding requirements and by making these requirements applicable to waste haulers which are not presently special waste haulers, some units of local government (those which are engaged in waste hauling) will be impacted.

Such additional expenses as may be incurred are anticipated to be very minimal (e.g., providing covers for any uncovered waste hauling vehicles to prevent waste from blowing off the vehicles), and consistent with protecting the public health and welfare. The additional requirements generally comport with what is already viewed as sound waste transportation practices (there are very few uncovered waste hauling vehicles, for instance). Absent such requirements, the objective of the safe and inoffensive transport of wastes cannot be fully realized. All such requirements are crafted to allow the affected parties flexibility to implement measures in any appropriate way they choose.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

Section 148.120 Disproportionate Share Hospital Adjustments

a) Beginning July 1, 1989, the Department will make payment adjustments to hospitals which are deemed as disproportionate share hospitals by the Department. A hospital may qualify for a Qualified Disproportionate Share Hospitals. For inpatient services provided on or after July 1, 1989, the Department shall make adjustment payments to hospitals which are deemed as disproportionate share by the Department. A hospital may qualify for a disproportionate share adjustment in one of the following ways:

- 1) The hospital's Medicaid inpatient utilization rate, in terms of inpatient days of care provided to Title XIX recipients compared to total inpatient days of care provided, is at least one standard deviation above the mean Medicaid utilization rate. Title XIX specifically excludes General Assistance (GA) and Aid to the Medically Indigent (AMI) days but does include Medicare/Medicaid crossover days.
- 2) The hospital's low income utilization rate exceeds 25%. For this alternative, payments for all patient services (not just inpatient) for Medicaid, GA, AMI and/or any local or state

government-funded care, must be counted as a percentage of all net patient service revenue. To this percentage, the percentage of total inpatient charges attributable to inpatient charges for charity care (less payments for GA and AMI inpatient hospital services, and/or any local or state government-funded care) must be added.

3) Illinois hospitals that are located in a federally designated Health Manpower Shortage Area that have a Medicaid inpatient utilization rate, as defined in subsection (a)(1) above, that is at least the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving medical assistance payments from the Department and which are located in a planning area with one-third or fewer excess beds as determined by the Illinois Health Facilities Planning Board.

4) Any children's hospital, which means a hospital devoted exclusively to caring for children. A hospital which includes a facility devoted exclusively to caring for children that is separately licensed as a hospital by a municipality shall be considered a children's hospital to the degree that the hospital's medical assistance care is provided to children.

b) In addition, to be deemed a disproportionate share hospital, a hospital must have provided the Department, in writing, with the names of at least 2 obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals entitled to such services under a State Medicaid plan. In the case of a hospital located in a rural area (that is, an area outside of a Metropolitan Statistical Area, as defined by the Executive Office of Management and Budget), the term "obstetrician" includes any physician with staff privileges at the hospital to perform nonemergency obstetric procedures. This requirement does not apply to a hospital in which the inpatients are predominantly individuals under 18 years of age; or does not offer nonemergency obstetric

(Cont'd.)

services as of December 31, 1987. Hospitals that do not offer nonemergency obstetrics to the general public must submit a statement to that effect.

c) In making the determination described in subsection (a)(1) above, the Department will use the hospital's cost reports and the Department's paid claims data for the hospital's base fiscal year (i.e., calendar year 1986 for fiscal year 1989 payments, calendar year 1987 for fiscal year 1990, etc.) for information regarding Illinois Medicaid recipient utilization levels. In addition, hospital statements and verification reports from other states will be required to verify out-of-state Medicaid recipient utilization levels. Also, a hospital that was the recipient of delegated days and did not receive payment directly from the Department (i.e., the delegating hospital received payment from the Department and then reimbursed the recipient hospital) must submit information to the Department identifying the delegating hospital and documenting that the delegated days were provided by the recipient hospital.

d) Hospitals not qualifying as disproportionate share hospitals by the Department under subsection (a)(1), may be considered under subsection (a)(2) by submitting a certified financial statement.

e) ~~Payments to Disproportionate-Share-Hospitals.~~
Inpatient Payment Adjustments to Disproportionate Share Hospitals. The adjustment payments required by subsection (a) above shall be calculated annually as follows:

1) Hospitals qualifying as disproportionate share hospitals under subsections (a)(1) and (a)(2) will receive an add-on payment to their inpatient rate. The distribution method is based upon a total-disproportionate-share fund of \$5M. All qualifying hospitals qualifying under subsection (a)(1) and subsection (a)(2) will receive a five dollar (\$5) per day add-on to their current rate. The total cost of this adjustment is calculated by multiplying each hospital's total most recent completed fiscal year 1987 Medicaid

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENT

(Cont'd.)

inpatient day utilization data by five dollars (\$5). The total dollar amount of this calculation is then subtracted from the \$5M fund. The remaining fund balance is then distributed to the hospitals that qualify under subsection (a)(1) above in proportion to the percentage by which the hospital's Medicaid inpatient utilization rate exceeds one standard deviation above the State's mean Medicaid inpatient utilization rate. This is done by finding the ratio of each hospital's percent Medicaid utilization to the State's mean plus one standard deviation percent Medicaid value. These ratios are then summed and each hospital's proportion of the total is calculated. These proportional values are then multiplied by each hospital's fiscal year 1987 most recent completed fiscal year paid inpatient day values. These weighted values are summed and each hospital's proportion of the summed weighted value is calculated. Each individual hospital's proportional value is then multiplied against the total \$5M pool of disproportionate share money available after the five dollars (\$5) per day base add-on has been subtracted. The total dollar amount calculated for each hospital (plus the initial five dollars (\$5) per day add-on amount) is then divided by the inpatient day projections to arrive at per day add-on value. Hospitals qualifying under subsection (a)(2), will receive the minimum adjustment of five dollars (\$5) per inpatient day. The disproportionate share adjustment will be allocated using one dollar (\$1) per inpatient day as a minimum. For hospitals qualifying under subsection (a)(1) above, this minimum amount will increase in proportion to the percentage by which the hospital's Medicaid inpatient utilization rate exceeds one standard deviation above the State's mean Medicaid inpatient utilization rate. Hospitals qualifying under subsection (a)(2) will receive the minimum adjustment of one dollar (\$1) per inpatient day.

Section 148.120 Disproportionate Share Hospital Adjustments
(Cont'd.)

- 2) In addition to the adjustment methodology described in subsection (e)(1) above, all disproportionate share hospitals described in subsection (a) shall receive a payment adjustment which will be calculated annually as follows:
- A) The hospital's inpatient payment rate shall be multiplied by .0734, the product which shall then be multiplied by the sum of the following:
 - (i) the hospital's occupancy ratio multiplied by .75;
 - (ii) the hospital's Medicaid inpatient utilization rate; and
 - (iii) the hospital's Medicare utilization differential.
 - B) The amount calculated pursuant to subsection (e)(2) above shall be added to 20, and this sum plus any applicable amount calculated under subsection (e)(1) shall be the inpatient payment adjustment in dollars for the applicable fiscal year.

f) Children's Hospital Inpatient Payment Adjustment. For children's hospitals, as defined in subsection (a)(4), the amount calculated pursuant to subsection (e)(2)(A) shall be multiplied by 2.0.

g) Inpatient Payment Adjustment Definitions. The definitions of terms used with reference to calculation of the inpatient payment adjustments are as follows:

- 1) "Medicaid inpatient utilization rate" means a fraction, the numerator of which is the number of a hospital's inpatient days provided in a given 12-month period to patients who, for such days, were eligible for Medicaid under Title XIX of the Federal Social Security Act and the denominator of which is the total number of the hospital's inpatient days in that same period.

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENT

Section 148.120 Disproportionate Share Hospital Adjustments
(Cont'd.)

2) "Mean medical assistance inpatient utilization percentage" means the total number of medical assistance inpatient days provided by all Medicaid-participating hospitals divided by the total number of inpatient days provided by those same hospitals.

3) "Medicare utilization differential" means a hospital's Medicare inpatient utilization percentage minus the mean Medicare inpatient utilization percentage; provided, however, that in no event shall the Medicare utilization differential be less than zero.

4) "Medicare inpatient utilization percentage" means a fraction, the numerator of which is the number of a hospital's inpatient days provided in a given 12-month period to patients who, for such days, were eligible for Medicare under Title XVIII of the Federal Social Security Act, and the denominator of which is the total number of the hospital's inpatient days in that same period.

5) "Mean Medicare inpatient utilization percentage" means the total number of Medicare inpatient days provided by all Illinois hospitals divided by the total number of inpatient days provided by those same hospitals.

6) "Occupancy ratio" means a fraction, the numerator of which is the hospital's occupancy rate as determined by the Illinois Department of Public Health and the denominator of which is the mean occupancy rate of:

A) all Illinois hospitals located within Metropolitan Statistical Areas when calculating the occupancy ratio for a hospital located within a Metropolitan Statistical Area; or

B) all Illinois hospitals located outside of Metropolitan Statistical Areas when calculating the occupancy ratio for a hospital located outside of any Metropolitan Statistical Area.

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENT

Section 148.120 Disproportionate Share Hospital Adjustments
(Cont'd.)

7) "Mean occupancy rate" means the sum of occupancy rates, as determined by the Illinois Department of Public Health, of all hospitals within a category of hospitals described in subsection (g)(6) divided by the total number of hospitals in such category.

8) Payments to Participating Out-of-State Hospitals. For purposes of the determination described in subsection (a)(1), out-of-state hospitals will be measured in relationship to the mean Medicaid inpatient utilization rate in their state. Out-of-state hospitals which do not qualify by the Medicaid inpatient utilization rate from their state may submit a certified financial statement as described in subsection (d). Payments to out-of-state hospitals will be allocated using the same method as described in subsection (e).

i) Time Limitation for Additional Information Requirements. Beginning with state fiscal year '91 determinations for disproportionate share, submittal of information required in subsections (a)(2), (b), (c) and (d) must be received no later than June 30th of the state's fiscal year immediately preceding the fiscal year for which the hospital is requesting consideration of such information for the determination of disproportionate share qualification (i.e., for the FY'91 determination, information must be received no later than June 30, 1990). Information required in subsections (a)(2), (b), (c) and (d) which is not received in compliance with these time limitations will not be considered for the determination of those hospitals qualified for disproportionate share payment adjustments.

c) State Allocation to Substate Areas - The Governor shall allocate 60 percent of the State's Title III allotment to substate areas in accordance with Section 302(d) of the Act. The allocation formula shall utilize the information detailed in Section 302(d) of the Act. Each of the following shall be the basis for allocating 25 percent of the total allocation to each substate area: insured unemployment data, unemployment concentrations data, declining industries data and long-term unemployment data. The following shall be included in the allocation formula, but shall not be bases for the distribution of funds at this time: plant closing and mass layoff data, and farmer-rancher economic hardship data.

1) The following shall be the measures of the factors to be used in calculating the allocation of Title III funds to substate areas:

- A) Insured Unemployment Data - The relative number, for each substate area, of unemployment insurance claimants under the Unemployment Insurance (UI) system.
 - B) Unemployment Concentrations Data - The relative number, in each substate area, of unemployed individuals residing in counties (or sub-county substate areas) with an unemployment rate higher than the statewide unemployment rate for the same time periods as used in federal allotments.
 - C) Declining Industries Data - The relative number, in each substate area, of jobs lost within industries which have experienced declining employment.
 - D) Long-Term Unemployment Data - The relative number, in each substate area, of unemployment insurance claimants who have received benefits for 15 or more weeks under the UI system.
- 2) No substate area shall be allocated an amount less than a minimum set by the Illinois Job Training Coordinating Council (IJTCC). The minimum for the first year is \$200,000. If the amounts allocated pursuant to the above formula are not sufficient to meet this level for each substate area, the amounts allocated to all other areas shall be ratably reduced so that each receives no less than the minimum.
- 3) As applicable, the Department shall utilize data for the

same base period as the Secretary of the U.S. Department of Labor pursuant to Section 162 of the Act, if all necessary data is available to the Department in a timely manner.

d) Reservations for State Activities and for Substate Grantees in Need - In accordance with Section 302(c) of the Act, the Governor shall reserve 40 percent of the amount allotted to the State under Section 302(a)(1) of the Act. These funds shall be used for the activities described in Section 302(c)(1)(A) through (E) of the Act.

Section 2625.40 Title III Substate Area

a) Designation of Substate Area

- 1) The Department on behalf of the Governor may initiate an application process for Private Industry Councils and local chief elected officials to request designation as a substate area under the Act to take effect at the start of Program Year 1989. The process for designation and redesignation of substate areas shall conform with the requirements of Section 312(a) of the Act and 53 FR 41594 (to be codified at 20 CFR 631.34) (October 24, 1988, with no later amendments or editions). Redesignation of substate areas shall not take place more frequently than once every two years and shall not be made later than four months before the beginning of a program year. In considering whether to initiate an application process for designation, the Department shall ensure that each Service Delivery Area (SDA) within the State is included within a substate area and that no SDA is divided among two or more substate areas; ensure the recommendations of the IJTCC are considered by the Governor; consider the availability of administrative funds to support the existing SDA administrative structure; and, consider the capacity available in the substate areas to achieve or exceed performance standards. The IJTCC shall recommend to the Governor substate areas by preparing a map of the State identifying the geographical area to be included in each substate area. Pursuant to Section 4(c) of the Illinois Job Training Coordinating Council Act (Ill. Rev. Stat. 1988 Supp., ch. 48, par. 2104), these recommendations shall be forwarded to the President of the Senate and Speaker of the House of Representatives, or their designees, for review and comment by the Illinois General Assembly. In addition to criteria which may be identified by the IJTCC, the IJTCC shall consider the following criteria prior to making recommendations to the Governor on designation and

redesignation:

- A) the availability of services throughout the State;
- B) the capability to coordinate the delivery of services with other human service and economic development programs;
- C) the geographic boundaries of labor market areas within the State;
- D) the adequacy of estimated available funds to support the administrative expenses of proposed substate areas;
- E) the potential impact of designation and redesignation decisions on the ability to maintain existing effective local relationships established for the provision of employment and training services (e.g., agreements among local chief elected officials).

2) In addition to the entities identified in Section 312(a)(4) of the Act, the Governor may, without regard to the 200,000 population requirement, designate SDAs with smaller population as substate areas. The Governor may deny a request for substate area designation from a consortium of two or more substate areas that meets the requirements of Section 312(a)(5) of the Act only upon a determination that the request is not consistent with the effective delivery of services to eligible dislocated workers in the relevant labor market area, or would otherwise be inappropriate. In denying a consortium's request for substate area designation, the Governor shall set forth the basis and rationale for the denial (Section 312(a)(5) of the Act). Entities described in 53 FR 41594 (to be codified at 20 CFR 631.34(c)(1)) may appeal the Governor's denial according to procedures described in 53 FR 41594 (to be codified at 20 CFR 631.34(g)).

b) Petition for Redesignation - Pursuant to Section 312(a)(6) of the Act, the Department shall initiate an application process for redesignation as described in subsection (a), if a petition is filed with the Department by an entity specified in Section 312(a)(4) of the Act. Petitions shall be accepted only if filed at least eighteen months before the start of the program year for which the redesignation is proposed. Petitions for redesignation shall include a Consortium Membership Agreement for petitioners pursuant to Section 312(a)(4)(B) of the Act.

Section 2625.50 Designation of Substate Grantees

a) Transition Provisions - Provisions of this subsection shall apply to the initial designation of the substate grantee to implement the provisions of the Economic Dislocation and Worker Adjustment Assistance Act. In each substate area designated by the Governor pursuant to Section 2625.40, a substate grantee shall be designated in accordance with Section 312(b) of the Act. Pursuant to the transition provisions specified at 53 FR 41597 (to be codified at 20 CFR 631.70(c)) (October 24, 1988, with no later amendments or editions), the effective period of this designation shall end June 30, 1990. The chief elected officials (CEO) for each substate area and the Private Industry Council (PIC) shall recommend to the Governor an entity as substate grantee. In any case in which there are two or more units of general local government, the CEO of such units shall negotiate with the PIC in a manner consistent with the agreements established pursuant to Sections 102(d)(2) and 103(b) of the Act to arrive at a recommendation. In any case where the Governor concurs with the joint recommendation of the CEO and PIC, the Department shall forward a written agreement to the CEO and PIC for signatures to execute the agreement with the Governor. In any area where the CEO and the PIC cannot reach agreement, the CEO and PIC shall forward separate recommendations to the Governor. The Department shall distribute written instructions for the submittal of recommendations. In any case where the Governor is not in agreement with the CEO and PIC recommendation, or the CEO and PIC are not in agreement, the Department shall first attempt to negotiate a consensus recommendation. In the event a consensus recommendation cannot be reached, the Governor shall select the substate grantee. In attempting to negotiate a consensus recommendation or, in the absence of consensus, when designating the substate grantee, the Governor shall consider the following:

- 1) The degree to which the designation will contribute to the elimination of duplication of services;
- 2) The degree to which the designation will foster coordination of services with other programs under the Act;
- 3) The ability of the agency recommended to deliver services as evidenced by past experience in the administration of employment and training programs; and,
- 4) The degree to which the proposed designation capitalizes on the expertise of the Regional Dislocated Worker Centers established under previous statute.

NOTICE OF ADOPTED RULES

- b) Eligible Agencies - Entities defined pursuant to Section 312(c) of the Act are eligible to be designated as substate grantee.
- c) Biennial Designation - Pursuant to the requirements of Section 312(b) of the Act, a substate grantee shall be designated on a biennial basis in accordance with an agreement among the Governor, the local chief elected official or officials of the substate area and the PIC. In any case in which there are two or more units of general local government, the CEO of such units shall negotiate with the PIC in a manner consistent with the agreements established pursuant to Sections 102(d)(2) and 103(b) of the Act. Designation of the substate grantee shall be consistent with coordinated service delivery, cost effective service provision, and adequate administrative safeguards. Biennial designation of the substate grantee shall conform to the following procedures:

- 1) Performance Related - In any case where the substate grantee fails to meet performance standards promulgated by the Secretary pursuant to Section 106(c) of the Act or fails to provide adequate administrative safeguards consistent with good program management, the Department shall initiate negotiations for the designation of the substate grantee. In such cases, the Department shall forward written instructions to the CEO and PIC describing procedures for negotiations. The existing substate grantee shall not be redesignated unless the following procedures are followed:

- A) The reasons for inadequate performance shall be documented and provided to the Department.
 - B) A corrective action plan shall be developed and submitted to the Department. The plan shall include, as appropriate, reorganization of the substate grantee to address the reasons for inadequate performance. The plan shall describe other proposed corrective action to address inadequate performance.

ILLINOIS DEPARTMENT OF TRANSPORTATION

NOTICE OF REFUSAL TO MODIFY OR
WITHDRAW TO MEET THE OBJECTIONS
OF THE JOINT COMMITTEE ON ADMINISTRATIVE RULES

violated Section 5.03 of the Illinois Administrative Procedure Act in that much of the rulemaking was not required under conditions which precluded the use of general rulemaking procedures.

The Department concedes that its old policies and procedures should have been adopted as rules. After the adoption of State implementing legislation in September 1988 and the publication of the proposed final federal rules, the Department began revising its policy and procedures. At that time it began considering its procedures as rules. Although there were delays due to bureaucracy, decision making, and internal communication, the Department proceeded promptly to incorporate the federal changes into more than ninety pages of rules. The proposed federal rule had been subject to public hearings and comment. Once the final federal rules were published, a final draft of the State rules was completed. The Department determined to publish the rules only after their content was known since both form and content is mandated by the federal regulation. The Department will seek to cooperate with the Joint Committee in every way possible and attempt to avoid similar situations in the future.

Part 518 is substantially equivalent to the content of the federal rules which were adopted March 2, 1989. The federal rules required the adoption of the Department's rules by April 2, 1989. The Department cannot agree with the Joint Committee's statement that much of the rulemaking was not required under conditions which precluded the use of general rulemaking procedures. It is the Department's position that, because the Department's rules are substantially equivalent to the federal rules, the adoption of this Part, pursuant to Section 5.03 of the Act, was proper and in the best interest of the State of Illinois.

For the reasons stated above, the Department refuses to amend or repeal the peremptory rule in response to the Joint Committee's objection.

AGRICULTURAL PRODUCERS & PRODUCTS

- 89-0264 4-12-89 Chemicals sold to a Christmas tree operation can be exempt under the farm chemical exemption since such growers are considered to be agricultural producers.
- 89-0319 5-04-89 Tree seedlings purchased by a nursery, that will resell the trees at retail to end-users, are exempt purchases.
- 89-0322 5-04-89 Chemicals that are applied to hogs as disinfectants can qualify for the farm chemical exemption.

BULK SALES

- 89-0420 6-30-89 The sale of real estate by an owner who is not liable for Retailers' Occupation Tax, does not trigger bulk sales notice requirements.

CERTIFICATE OF REGISTRATION

- 89-0274 4-13-89 It is unlawful for any person to engage in the business of selling tangible personal property at retail in Illinois without a certificate of registration from the Department.
- 89-0282 4-20-89 If a business acts exclusively as a wholesaler and 100% of its sales are for the purpose of resale, it is not required to register under the Retailers' Occupation Tax Act.

CLAIMS FOR CREDIT

- 89-0253 4-10-89 Food vending machine operators who remit too much Retailers' Occupation Tax to the Department will rarely, if ever, be entitled to a refund because such operators do not bear the burden of the tax and they cannot refund the tax to their customers.
- 89-0314 4-28-89 The statute of limitations applicable to claims for credit is three to three and one-half years.
- 89-0383 5-25-89 Only the person who has actually paid tax to the Department can file a claim to recover that payment.

COINS & PRECIOUS METALS

89-0389 5-31-89 Coins, ingots and similar items do not qualify for an Illinois sales tax exemption when they are sold in the form of jewelry.

CONSTRUCTION CONTRACTORS

89-0256 4-11-89 A person who takes tangible personal property off the market and converts it into real estate is the legal end-user of the property.

89-0299 4-26-89 A person who takes tangible personal property off the market by permanently affixing it to real estate acts as a construction contractor and incurs Illinois Use and local Retailers' Occupation Tax reimbursement liabilities upon the cost price of such materials.

89-0305 4-27-89 When a construction contractor incorporates building materials into real estate, the contractor is the legal user of the building materials and incurs Use Tax and local Retailers' Occupation Tax reimbursement liabilities upon their cost price.

89-0324 5-05-89 Illinois sales tax law deems a construction contractor who converts tangible personal property into real estate to be the legal user of that property. Consequently, the contractor incurs Illinois sales tax liabilities upon his cost price of the building materials.

89-0356 5-16-89 A person who permanently affixes building materials to real estate is the legal user of those materials and incurs Illinois Use and local Retailers' Occupation Tax reimbursement liabilities based on the cost price of those materials.

89-0401 6-22-89 Construction contractors incur Use Tax liability on the building materials which they purchase for physical incorporation into real estate.

89-0414 6-27-89 Public improvements required to be conveyed to a governmental body upon completion can be purchased tax-free.

ENTERPRISE ZONES

89-0236 4-05-89 Building materials, including underground storage tanks must be purchased from a retailer located within the municipality that created the enterprise zone, in order to be exempt from sales tax. See, 86 Ill. Adm. Code Section 130.1951(a) (2).

89-0254 4-11-89 The enterprise zone building materials exemption requires that the building materials be purchased from a retailer located in a jurisdiction which created the zone.

89-0255 4-11-89 Retailers located outside the jurisdiction(s) which created the enterprise zone into which building materials will be incorporated cannot claim the enterprise zone building materials exemption.

89-0244 4-07-89 MSOT is triggered whenever a purchase order is subject to acceptance within the municipality. If the purchase order is subject to acceptance outside Illinois, it is triggered when the merchandise is physically located within an Illinois municipality at the time of sale.

89-0263 4-12-89 Under the MES exemption, materials which are used to form molds can qualify for the exemption, but mold partings cannot.

89-0266 4-12-89 An insulating jacket which is put on to pipes or other equipment used in a direct on-line manufacturing process can also qualify for the MES exemption.

89-0268 4-12-89 Under the MES exemption, lubricants used in qualifying machinery do not constitute replacement parts and are therefore fully taxable.

89-0338 5-11-89 Municipalities are statutorily authorized to reimpose the Municipal Retailers' Occupation Tax upon machinery and equipment that would otherwise qualify for the exemption from State ROT.

Testing of Breath, Blood and Urine for Alcohol And/Or Other Drugs

2) Code Citation:

77 Ill. Adm. Code 510

3) A Description of the Rule(s):

The Illinois Department of Public Health is charged with the responsibility of approving breath, blood and urine test methods for alcohol and other drugs, licensing test operators and certifying breath test instruments. The current rule related to approval of breath test instruments states:

Section 510.40 (b)

1) Infra-red absorption - The Intoxilyzer models 4011, 4011A, 4011AS, 4011ASA and 5000, the ALCOMAT, Alcotest 7110, BAC Verifier and Datamaster models, Breathalyzer model 2000, the Intoximeter model 3000 are instruments using the infra-red absorption method and have been approved by the Department.

2) Photoelectric Colorimetry - The Breathalyzer Model 1000 is an instrument using the photoelectric colorimetry method and has been approved by the Department. (Delete subsection 510.40 (b) (2) from the rules)

3) The Department is proposing the following rule modification:

Delete Section 510.40 (b) (2) Photoelectric Colorimetry from the approved methods of breath analysis and remove the Breathalyzer Model 1000 from the list of approved devices for breath analysis.

The Breathalyzer Model 1000 was produced by the Smith & Wesson Corporation which ceased the manufacturing of all breath analysis instruments in June 1984. The last Breathalyzer Model 1000 delivered in Illinois was received in 1974. There are only 18 operating Model 1000's left in service and these will all be replaced by December 1990. The Model 1000 utilizes a glass ampoule containing 3 milliliters of sulphuric acid and potassium dichromate in solution. This is the only breath instrument left in Illinois which uses a toxic chemical solution. To dispose of used ampoules the solution is

simply washed down a drain placing a very dangerous soluble chemical in the environment. With the deletion of the Breathalyzer 1000 from the approved list of test devices, Section 510.50 Assaying Ampoule Solutions should also be removed from the rules. Without the Model 1000 in service there will be no need for ampoules or assaying ampoule solutions.

In addition to the above, it is impossible to obtain spare parts or repair a Model 1000. A unit 15 or more years old is no longer reliable and creates major maintenance problems.

The Department will be proposing an addition to Section 510.70, adding a new subsection (g) entitled "Qualifications of Instructors."

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking activity occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash. (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-857786; A-724)) The codes for both columns are listed below. For a complete listing of the Titles of the Illinois Administrative Code, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.
